1. Whether POU5F1 binds the NANOG locus (yes/no)

yes

2. Number of peaks near/within NANOG (up to 10KB around the NANOG Gene)

35

3. Coordinates of one representative peak

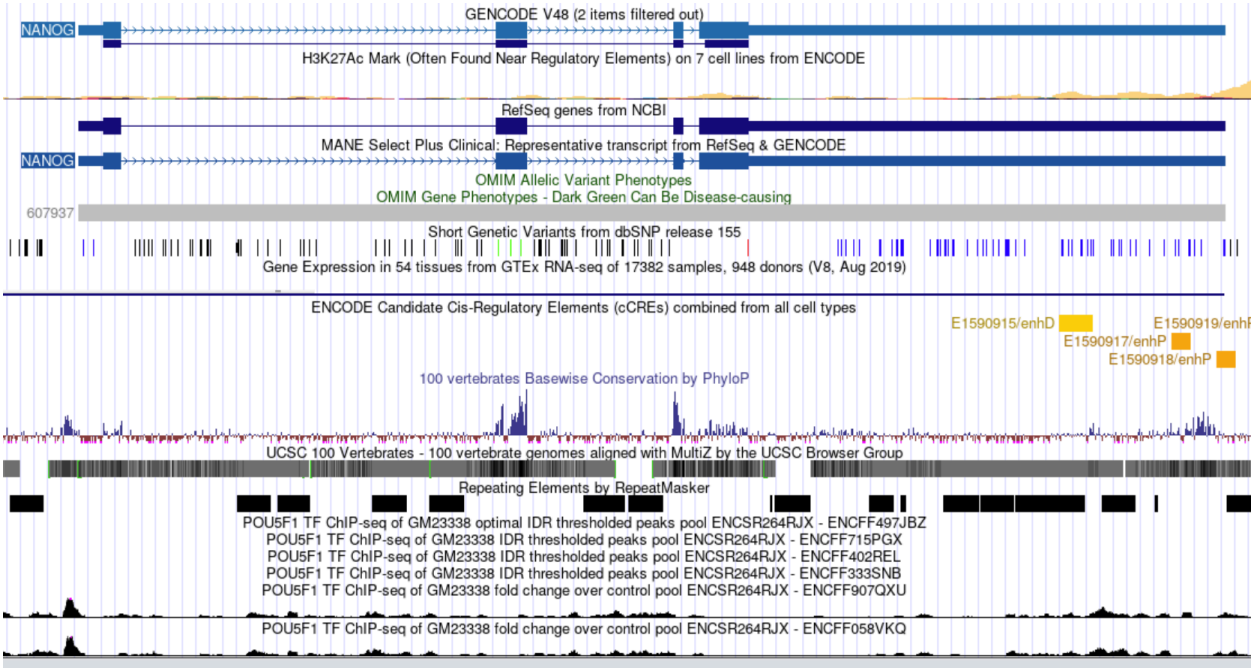
`chr12:7789249-7789468`

4. Estimated peak width (bp)

219bp

5. Approximate distance of this peak from the NANOG TSS

66

6. Screenshot of the UCSC Genome Browser showing NANOG and the POU5F1 peak(s)


7.
